Prof. Fernando Boada
Department of Radiology
Stanford Medicine

January 30, 2022

Dear Prof. Boada,

I would like to apply for the postdoctoral position focussing on anatomically-guided image reconstruction posted in the ISMRM career center on 28 Jan 2022.

Currently, I am a PostDoc in the medical image reconstruction group of Prof. Johan Nuyts at KU Leuven in Belgium mainly working on joint image reconstruction in hybrid PET/MR imaging. One my main focusses of the last year was improving and evaluating iterative PET reconstruction using anatomical priors derived from high-resolution structural MR scans. In our 2018 IEEE TMI publication "Evaluation of Parallel Level Sets and Bowsher's Method as Segmentation-Free Anatomical Priors for Time-of-Flight PET Reconstruction", we could e.g. show that using structural priors improves the bias-noise trade-off in brain PET reconstructions. Very recently, we could also show that similar image quality can be achieved post reconstruction using a deep convolutional neural network (see e.g. "Approximating anatomically-guided PET reconstruction in image space using a convolutional neural network", NeuroImage 2021). Together with colleagues from Siemens Healthcare, we were able to translate this approach into a work-in-progress package that is now available on all Siemens mMR PET/MR scanners.

Since sodium brain MR images suffer from silimar problems as PET images - namely relatively low spatial resolution and high noise - we also investigated the concept of anatomy-guided reconstruction using a similar prior for this reconstruction problem. First results of this approach were recently presented at the 2020 IEEE MIC and the 2021 ISMRM conferences.

Based on your publication record, it is clear that you are a very well-known researcher in the field of MR imaging and I would like to contribute with my experience in iterative image reconstruction using structural (anatomical) priors and my strong interest in high performance computing in the context of inverse problems in medical imaging to your future research.

In the meantime, thank you in advance for considering my application.

Sincerely yours,

Georg SCHRAMM

Attached: curriculum vitæ and list of publications

List of referees

- Prof. Johan Nuyts - supervisor during my PostDoc time at KU Leuven, Belgium - johan.nuyts@uzleuven.be
- Prof. Jörg van den Hoff - supervisor during my PhD time at HZDR / TU Dresden, Germany - j.van_den_hoff@hzdr.de
- Prof. Martin Holler - collaborator at university of Graz, Austria - martin.holler@uni-graz.at

Georg SCHRAMM

Personal Details

date of birth	08 April 1987
place of birth	Görlitz, Germany
nationality	German

Education

Jan 2015 **PhD in medical imaging**, TU Dresden, Germany.
Thesis: "Evaluation and Improvement of MR-based attenuation correction in PET/MRI."
final mark: summa cum laude, link (German National Library)

Apr 2011 **Master in (nuclear and particle) physics**, TU Dresden, Germany.
Thesis: "Simulation and analysis of neutron capture and photon scattering experiments."

Experiences

since Apr 2015 **Postdoctoral researcher**, KU Leuven, Belgium, Department of Imaging and Pathology, Division of Nuclear Medicine.
As a PostDoc in the lab of Prof. Johan Nuyts, I am investigating joint advanced method for iterative PET image reconstruction and the application of deep learning in PET reconstruction and image analysis. Moreover, I am heavily interested and involved in the translation of our research into clinical routine.

Jan 2015 - Mar 2015 **Scientist**, Helmholtz-Zentrum Dresden-Rossendorf (HZDR), Institute for Radiopharmaceutical Cancer Research.

May 2011 - Jan 2015 **PhD student**, HZDR, Institute for Radiopharmaceutical Cancer Research.
As a PhD student in the lab of Prof. Jörg van den Hoff, I was evaluating and improving whole-body MR-based attenuation correction using one of the first combined PET/MR systems world-wide.

2021 **Member of the local organizing comittee for the 16th Virtual International Meeting on Fully 3D Image Reconstruction in Radiology and Nuclear Medicine**.
As a member of the organizing comittee, I was responsible for organizing the virtual poster session on gather.town as well as editing the conference proceedings submitted to arvix

since Apr 2019 **Active member in the KU Leuven PostDoc Society**.
I am involved in organizing career and networking events for PostDocs and in the preparation of a PostDoc charta for KU Leuven.

Apr 2013 - Feb 2015 **member of the management board of Werkstatt BigBand Dresden e.V.**.
In our student big band, I was organizing concerts, rehearsal weekends and finances.

Sep 2009 - Mar 2010 **Semester abroad**, University of Sheffield, UK.
During my Erasmus semester in Sheffield, I was studying astronomy and applied mathematics

Aug 2008 - Jul 2009 **Student research assistant**, HZDR Institute of Radiation Physics.
As an assistant, I was analysing neutron TOF and tranmission data and typesetting a lecture manuscript in latex.

Languages

German	native
English	fluent
Dutch	basic

Teaching

since 2017 Techniques and technologies in Nuclear Medicine (assistant for Prof. J. Nuyts)

since 2017 Medical Imaging (assistant for Prof. P. Suetens and Prof. F. Maes)

Awards

Nov 2019 **Best Poster Award 2nd place**.
Synergistic Reconstruction Symposium, Chester

Mar 2015 **PhD Award**.
Yearly award for the best PhD thesis at HZDR

Mar 2014 **Award for notable achievements in nuclear medicine imaging**.
German Society of Nuclear Medicine

Mar 2014 **Travel grant for RSNA 2014 for the best oral presentation of a young investigator.**.
Annual meeting of the German Society of Nuclear Medicine

May 2012 **Award for the best oral presentation of a young investigator.**.
International conference on PET/MRI and SPECT/MRI. La Biodola, Italy

Jan 2012 **Ehrenfried Walter von Tschirnhaus Urkunde**.
Yearly given to the five best graduates of the faculty of science at TU Dresden

Invited Talks

Nov 2019 **State of the art of AI for medical image reconstruction and corrections**.
IEEE MIC 2019 workshop: Emergence and perspectives of artificial intelligence (AI) methods in radiation-based imaging sciences, Manchester

Oct 2017 **MR-based attenuation correction for the body**.
Annual congress of the European Association for Nuclear Medicine, Vienna

Sep 2017 **Positron Emission Tomography - an introduction and overview about current developments**.
International workshop on positron studies on defects 2017, Dresden

Research Interests

PET PET image reconstruction
quantitative PET imaging
PET image analysis
hybrid PET/MR imaging
Deep learning in medical image reconstruction and analysis

Reviewer for J Nucl Med, Eur J Nucl Med, IEEE TMI, Eur J Nucl Med Phys

Skills

programming Python, keras, tensorflow, pytorch, IDL, matlab, R, C, C++, bash, git, cmake, openmp, cuda, github link

mathematics numerics, inverse problems and convex optimization in medical imaging

clinical PET imaging more than 8 years of experience in clinical operation of a PET/MRI scanner

Leuven, January 30, 2022

15th International Symposium on Capture Gamma-Ray Spectroscopy and Related Topics (CGS) DOI link (2015)

R Schwengner, R Beyer, A Junghans, R Massarczyk, G Schramm, D Bemmerer, E Birgersson, A Ferrari, E Grosse, R Hannaske, M Kempe, T Koegler, A Matic, K Schilling, A Wagner, G Rusev, A Makinaga, T Belgya, Z Kis, L Szentmiklosi, J Weil, F Becvar, M Krticka
EXPERIMENTS WITH NEUTRONS AND PHOTONS AT ELBE
14th International Symposium on Capture Gamma-Ray Spectroscopy and Related Topics (CGS) (2013)

R Massarczyk, G Schramm, E Birgersson, R Schwengner, E Grosse, A Junghans, A Wagner
Investigation of dipole strength at the ELBE accelerator in Dresden-Rossendorf
3rd International Workshop on Compound Nuclear Reactions and Related Topics (CNR) DOI link (2012)

E Grosse, A Junghans, R Massarczyk, R Schwengner, G Schramm
Description of dipole strength in heavy nuclei in conformity with their quadrupole degrees of freedom
3rd International Workshop on Compound Nuclear Reactions and Related Topics (CNR) DOI link (2012)

R Massarczyk, E Birgersson, G Schramm, R Schwengner, T Belgya, R Beyer, E Grosse, R Hannaske, A Junghans, A Matic, L Szentimiklosi, J Weil, A Wagner
Photon strength function deduced from photon scattering and neutron capture
EFNUDAT Users and Collaboration Workshop on Measurements and Models of Nuclear Reactions DOI link (2010)

E Grosse, A Junghans, F Becvar, E Birgersson, R Massarczyk, G Schramm
Photon strength in spherical and deformed heavy nuclei
EFNUDAT Users and Collaboration Workshop on Measurements and Models of Nuclear Reactions DOI link (2010)

A Ferrari, R Beyer, E Birgersson, J Claussner, E Grosse, R Hannaske, A Junghans, M Kempe, T Koegler, R Massarczyk, A Matic, K Schilling, G Schramm, R Schwengner, A Wagner, F Weiss, D Yakorev
Optimization aspects of the new nELBE photo-neutron source
EFNUDAT Users and Collaboration Workshop on Measurements and Models of Nuclear Reactions DOI link (2010)
